work

freecharge by axis bank / design

JULY 2023 - Present, BANGALORE

architecting the design team's strategic roadmap for expansion from digital-only to enterprise-wide - spanning physical spaces, employee experience, and customer journeys

developing the L&D curriculum to scale design thinking programs across 1L+ employees and specialized teams

driving omnichannel brand cohesion through a unified brandbook and cross-functional strategy across marketing, product, and retail

pioneered sonic branding for the mobile banking app - creating a cohesive sound design system across 7+ user touchpoints

built internal prototyping and testing infrastructure for haptics - establishing first-of-kind processes for the team

independent consultant - &things / interaction design

DECEMBER 2024 - Present, BANGALORE

lead the industrial and interaction design for a startup working on innovative sleep solutions

mastree / curriculum design

AUGUST 2020 - JANUARY 2021, REMOTE

redesigned learning experiences for grades 3-8 after conducting contextual inquiries with 25+ students and 10 teachers

openhouse learning / product development

APRIL 2020 - JUNE 2020, REMOTE

developed and **tested** a pictorial-based learning tool that increased content retention by 32% among 212 students

teach for india / fellow

JUNE 2018 - MAY 2020, AHMEDABAD

conducted home visits and parent one-on-ones across 28 students to understand household context and build individualised learning plans

designed and **facilitated** participant-led programs inside and outside school grounded in community observation

created *shor-sharab-a* - a theatre-based classroom intervention for educators developed through direct observation of student behaviour and engagement patterns

built the open art collective as a community-led platform for student expression, shaped by understanding of local cultural context

kaarmic education / camp lead

APRIL 2019 - MAY 2019, HYDERABAD

designed and implemented material which reached 2000+ camp attendees

ather energy / product intern

JANUARY 2018 - JUNE 2018, BENGALURU

developed service processes using machine learning algorithms to transform scooter error codes into specific service tasks

siemens tech / industrial automation intern

AUGUST 2016 - JULY 2017, BENGALURU

designed and **developed** a human-machine interface using SIMATIC for a bottling plant in hungary

designed and developed internal tools for project management

education

NID Gandhinagar / MDes, Industrial Design (Toy and Game Design)

AUG 2021 - 2026, GUJARAT

University of The Arts / Exchange Program, Games and Interaction

AUG 2022 - FEB 2023, UTRECHT

RVCE / B.E, Electrical Engg.

AUG 2014 - JUL 2018, BENGALURU

skills

design: design strategy · brand & art direction · system design · service & spatial design · play experience design · instructional design

research: ethnography · semi-structured interviews · contextual inquiry · field observation · participatory design methods · qualitative synthesis · playful methods

tech and prototyping:

rapid prototyping (physical + digital) · ML model integration · hardware-software systems

tools

pen and paper

visuals - adobe cc (ai, pr, ae), figma

3d - blender, touchdesigner, fusion

sound - ableton, audition, max msp

software - python, html, css, js (d3.js, p5.js)

physical - arduino, raspberry pi, 3d printing

research

rsd symposium, 2023

truth by design - paper and presentation

participatory design conference, 2022

multifunctional spaces and individual + community well-being - presentation

rterc winter school, iim ahmedabad, 2019

prediction of academic performance using social cognitive determiners - top research practicum
